

# FIELD VISIT TO HARNAI AUCTION

The department of Zoology conducted a field visit aim of 6<sup>th</sup> semester, dated 8th February 2022. The aim of the field visit was to let the students know about various species of the fishes that are found on large scale in the respective region. The students were accompanied by their respective subject teacher, Mrs. Rakhi Shet.

Students studied variety of species of fishes found in Harnai. We left our place 10:00am in the morning. When we reached the shore we also studied some small aquatic fauna found over there. We saw many types of algae. Different species of shell animals and crabs. Madam also made students understand their ecological behavior and their adaptation.

Further, the students went to Harnai Bandar. Where the actual market is setup. It was a fish auction market where fishes were sold to highest to a particular person. Each type of fishes were available there. Students had a brief information about fishes by Mrs. Rakhi Shet. The students returned back to the village from Harnai region with full satisfaction.
